

Equivalence Class	Test Input	Expected Output
E1: $2 \leq \text{input} \leq 4$	2	Search is valid
	3	Search is valid
	4	Search is valid
E2: $5 \leq \text{input} \leq 10$	5	Search is valid but displayed different result.
	6	Search is valid
	9	Search is valid
	10	Search is valid
E3: $11 \leq \text{input} \leq 14$	11	Search is valid but displayed different result.
	12	Search is valid
	13	Search is valid
	14	Search is valid.
E4: $15 \leq \text{input} \leq 19$	15	Search is valid but displayed different result.
	16	Search is valid.
	18	Search is valid.
	19	Search is valid.
E5: $30 \leq \text{input} \leq 40$	30	Search is valid but displayed different result.
	31	Search is valid.
	39	Search is valid.
	40	Search is valid.
E6: $41 \leq \text{input} \leq 50$	41	Search is valid but "No products found for your search. You may be interested in the following." Message displayed.
	42	Search is valid but "No products found for your search. You may be interested in the following." Message displayed.
	49	Search is valid but "No products found for your search. You may be interested in the following."

		Message displayed.
	50	Search is valid but "No products found for your search. You may be interested in the following." Message displayed.
U1: Invalid Inputs	0	Search is not valid. Input too short - Search not triggered.
	1	Search is not valid. Input too short - Search not triggered.
	51	Search is not valid. Input exceeds 50-character limit- Search rejected.
	100	Search is not valid. Input exceeds 50-character limit- Search rejected.
